ICON
INTELLIGENT
CONSTRUCTION

BROOMHILL, NORTHAMTONSHIRE

Completed: 2016

Total Capacity: 105 beds (overall combined facility)

Size: 58,000 sq. ft.

Plot: 8.4 acres

Wings: 7

Contract: 60 weeks

52 week construction of a centre for clinical excellence set in over 8 acres of tranquil countryside.

There are a number of exceptional design features in the specialist mental health, acquired brain injury and hospital which Icon Design & Build Limited aimed to provide a fresh, distinctive and crisp design. The design is 'dove' shaped, providing an efficient use of the site operationally. The floors have been horizontally separated into units. The layout of the accommodation has been designed to provide 5 functional care wings with 2 per floor. The footprint of the proposal allows for the creation of enclosed private residential garden space with different aspects and outlooks. The relationship of the extension to the existing slow stream rehabilitation unit determines the location of the entrance and service area.

To talk about our significant experience in the healthcare sector,
please give us a call today on 01424 436 887.

Thank you.
